ENGINEERED FOR PROFESSIONAL USE

COMPOSITE PANEL CONSTRUCTION:

Extreme Efficiency.

100% composite panels are extremely lightweight, strong, durable, and dent resistant.

KEEP THE ELEMENTS OUT:

Your operating room is ready.

CNC-fabricated panels provide industry-leading fit and finish. Core-to-core bonding leaves no voids in the structure. Improved sealing keeps out dirt, dust, and insects.

WATERPROOF CONSTRUCTION

Made for easy clean up and removing dust and debris

STAY WARM OR COOL:

The best insulated trailers on the market allow for quick and easy heat up or cool down for maximum comfort and minimal power needs.

7015FT Spec

- 80.25" Int. Width
- 187.13" Int. Length
- Tandem Axle
- 6300# GVWR w/Brakes
- Base Weight - 2565 lbs

OFF-ROAD CAPABILITY:

High-frame ground clearance. Torsion suspension. The wiring is protected inside the trailer and not exposed under the frame.

LOWER COST OF OWNERSHIP FROM HIGHER QUALITY PRODUCTS

UNIQUE OPTIONS:

Adaptable to your specific needs.

Incorporate options like our drop-down frame, floor access panels, or even our patented hybrid wheel/skid design to increase mobility to get the job done in the toughest of environments

INTELLI-CORE STRUCTURAL COMPOSITE TECHNOLOGY

Numerous advantages over traditional construction methods result in a lighter, stronger, easier to use, and longer lasting product which increases capability and productivity.

Lightweight - The lightest trailers in their class. Easy to tow, even behind utility vehicles.

Durable - Structural composite construction results in a dent resistant, stronger, and more resilient design.

Non-Conductive - Panels are constructed out of fiberglass, foam, and/or honeycomb materials.

Store Indoors or Out - Panels are waterproof, UV resistant, and built to handle the elements.

Easy to Maintain/Clean - Pressure wash inside and out. Smooth surfaces are easy to clean.

No Organic Materials = NO Mold, NO Rot, NO Mildew!

Precision Engineering - All panels, cabinetry, and storage solutions manufactured using CNC equipment for higher quality and industry leading fit and finish.

Thermal Advantage - Paneled construction gives a higher insulated product that is easy to heat/cool at a lower cost.

Easy to Graphic - Smooth, seamless paneled construction provides improved aesthetics and easy graphic application. Panels are available in many color options.

RF Transparent - Composite panels allow for radio wave transparency.

Longer Life - A CORE trailer utilizes manufacturing methods and materials that last longer reducing the frequency and need for replacement.

Easy to Repair - Damage is quickly and easily repaired at a lower cost.
